quality.

exceptional
performance.

*Finely tuned for
applications
across PE, PP, LD,
PS, ABS, PC,
POM, Nylon, PET,
Polyester, PVC,
PMMA, POY*

ABOUT *US*

Welcome to Shubh Labh International, founded by Neeraj Singhal under the name singhal plastics - a leader in the polymer industry with a legacy of innovation and excellence.

INDUSTRY EXPERTISE

Shubh Labh has been at the forefront of delivering high-quality masterbatches, modifiers, and color solutions for over 30 industries and 150 application types

RICH LEGACY

Founded by Mr. Neeraj Singhal, Managing Director of Shubh Labh International in 1986, our commitment to quality and innovation has propelled us to a prominent position in the global market.

GLOBAL PRESENCE

We operate in key markets including the USA, EU, UAE, Sri Lanka, South Africa, Canada, Nepal, and more, ensuring accessibility and reliability for our clients worldwide.

STATE-OF-THE-ART R&D CENTER AND LAB

We develop and sell certified products developed in our State-of-the-Art Lab

CUSTOMISATION TECHNOLOGY

We offer unparalleled customisation options, allowing clients to tailor products to their exact specifications with over 4000+ color options
10+ specialty effects.

UNPARALLED PRODUCT KNOWLEDGE

With over 40 years of industry expertise, Shubh Labh International brings unparalleled knowledge and proficiency to every project.

BLACK MASTERBATCH

SLI has meticulously curated an extensive range of black masterbatches, finely tuned for applications across PE, PP, PS, and an array of polymers. Our diverse product line boasts a curated selection of carbon blacks, providing a spectrum of characteristics.

SLI Black masterbatches stand as the epitome of superior quality, unwavering consistency, and exceptional performance. Engineered to excel across various applications, they are meticulously crafted to cater to the unique needs of our customers.

Utilizing top-grade carbon black, SLI masterbatches deliver outstanding opacity, seamless processability, enhanced spin-ability, and robust resistance to both heat and UV radiation, ensuring utmost satisfaction for our clients.

FEATURES

- Intense Jetness
- UV protection
- Meeting stringent food approval standards, alongside
- Economically viable solutions for color enhancement

BENEFITS

1. High jets
2. UV stability
3. Uniform dispersion
4. Resistant to high temperature
5. No issues of bleed or bloom
6. Simple to process

Beyond our standard offerings, we extend tailor-made options to cater precisely to our clients' needs, with a minimum order requirement.
